SUMMARY

I am Full Stack Developer with hands-on experience in React, PHP and MySQL. Built multiple web applications including online ordering systems. Strong in frontend development and backend integration.

MINI PROJECTS

Online Restaurant Ordering System (May)

- Developed an online food ordering web application using PHP and MySQL.
- Designed responsive frontend pages using HTML, CSS, Bootstrap.
- Implemented menu management, order tracking, and customer database handling.

MAIN PROJECTS

Secure Multi-Owner Conditional Data Sharing: (Mar-Aug)

- Developed a cloud-based secure file sharing system using J2EE and MySQL.
- Implemented symmetric key encryption for secure data storage.
- Added role-based access policies for controlled data sharing.
- Focused on cloud security and encrypted data dissemination.
